FRESH FLOWERS

REGARDING SEASONAL FLOWERS: We include gorgeous seasonal fresh flowers in our All- Inclusive package. The flowers included in our packages are normally hand tied round shaped bouquets.

FLOWER SELECTION: For our flower selection, we use the best seasonal flowers available at that time of the year. That way we are able to offer the best flower selection at the best possible price year round. We normally use Roses, Daisies, Hydrangeas, Lilies and/or other year round flowers, as well as seasonal ones.

The results are stunning and all of our brides have loved every one of their bouquets.

Specific flowers can fluctuate and some can be very expensive out of their season, which can drive the price of the packages /flower quotes a lot higher. So, instead we use lovely seasonal flowers to keep the cost constant.

By letting me know your wedding colors I will personally choose your flowers. I'll do my best to match the flower color you request, as best as possible.

However, if you would like specific flowers for your bouquet, or a specific design, we can always give you a quote on the flowers or design you want, if they are available that time of the year.

Flower Pricing:

- Seasonal Flowers Bride's bouquet \$175.00
- Matching Seasonal Flowers Bridesmaid Bouquet (about half the size of the bride's bouquet) \$105.00 each
- Matching Seasonal Flowers Jr Bridesmaid Bouquet (about 1/3 the size of the bride's bouquet) \$85.00 each
- Matching Seasonal Flowers Men Boutonnieres \$24.00 each
- Matching Seasonal Flowers Mom / Grandma - Ladies pin-on corsages \$42.00 each

(Flowers shops in the area have these flowers no less than \$65 each)

- Red Rose petals \$85 per order
- Custom color rose petals \$125 per order

NOTE: Tropical flowers (which are in vogue), are available for a supplemental fee. Many tropical flowers are imported, and they have a different price.

FREQUENTLY ASKED

When will we get the flowers?

We normally have the wedding flowers ready at the venue when they come to drop off the alcohol on the day of their wedding. This way they can take them with them for the pictures, etc.

Natural Bridal Flowers Care: Your natural bridal flowers do not need refrigeration. They DO need to be in the shade, away from heat sources and in the containers that we have provided until it is time for them to be used. If you use your fresh flowers bouquets for pictures, put them back in the bucket/container with water. If they stay out of water, in direct contact with a heat source or under the sun for a long period of time, they will wilt.
